FARMERS' BULLETIN No. 1301.—THE COMMON WHITE WHEATS:	
Common white wheats defined	3
Where grown	3
Areas to which adapted	4
Varieties	5
FARMERS' BULLETIN No. 1302.—HOW TO GET RID OF RATS:	
Introduction	1
Eliminating food and shelter	2
Poisoning	2
Kinds of bait	3
How to prepare baits	4
How to distribute poison	4
Trapping	5
Kinds of bait	6
Where to set traps	6
How to set traps	6
General trapping instructions	6
Fumigants and deterrents	7
Carbon bisulphide	7
Gasoline engine exhaust	7
Naphthalene flakes	7
Rat proofing	8
Natural enemies of rats	10
Viruses	11
Community cooperation	11
Summary	12
FARMERS' BULLETIN No. 1303.—THE CLUB WHEATS:	
What are club wheats?	3
Where grown	3
Areas to which adapted	4
Varieties	5
FARMERS' BULLETIN No. 1304.—THE DURUM WHEATS:	
What are durum wheats?	1
Where grown	1
Areas to which adapted	2
Use of durum wheat	3
Price of durum wheat	3
Varieties	4
FARMERS' BULLETIN No. 1305.—THE SOFT RED WINTER WHEATS:	
The soft red winter class of wheats	3
Where grown	3
Areas to which adapted	4
Varieties	5
FARMERS' BULLETIN No. 1306.—INSECT ENEMIES OF CHRYSANTHEMUMS:	
Destructive chrysanthemum insects	3
Chrysanthemum midge	3
Greenhouse leaf tier	6
Greenhouse white fly	9
Common greenhouse red spider	11
Aphids	13
Thrips	15
Cutworms	17
Scale insects	18

76509B—28

FARMERS' BULLETIN No. 1306.—INSECT ENEMIES OF CHRYSANTHEMUMS—Continued. Page
Occasional pests 21
Ants 21
Termites 22
White grubs 23
Slugs and snails 24
Sowbugs or "pillbugs" 24
Millipeds 25
Preparation of insecticides 25
Stomach poisons 26
Contact insecticides 27
Methods of applying insecticides 29
Spraying and dusting 29
Fumigation 32
Tabulated summary of methods 35
FARMERS' BULLETIN No. 1307.—QUACKGRASS:
Distribution and history 3
How to recognize quackgrass 5
Common names of quackgrass 9
How quackgrass is injurious 10
Habits of quackgrass 11
Control principles 14
Control practices 18
Miscellaneous methods of control 23
Pracautions necessary to keep quackgrass off the farm 25
Utilization of quackgrass 26
FARMERS' BULLETIN No. 1308.—MARKETING THE COWPEA SEED CROP:
Value of the crop 3
The commercial supply 3
Surplus producing areas 4
Varieties available 5
Farm preparation to increase value 6
Threshing 6
Recleaning 8
Sacking 11
Storage 12
Germination of seed 13
Marketing cowpeas 13
Selling to neighboring farmers 16
Selling to local shippers 16
Selling to distant seedsmen 17
Selling through farm paper advertising 18
The selling price of cowpeas 19
Seasonal trend of prices 20
Price variation in different sections 22
Relation of variety to price 23
Discount for mixed varieties 25
Competitive crops 26
FARMERS' BULLETIN No. 1309.—CONTROL OF THE COMMON MEALYBUG ON CITRUS IN CALIFORNIA:
Introduction 3
Distribution 3
Nature of injury 4
Host plants 5
Characteristics and life history 5
Relation to the Argentine ant 6
Ant-control methods 6
Control methods 9
Fumigation ineffective 9
Natural control 9
Spraying control 9
Summary 10

FARMERS' BULLETIN NO. 1310.—THE CORN EARWORM: ITS RAVAGES ON FIELD CORN AND SUGGESTIONS FOR CONTROL: Page

The most destructive corn insect 1
Other food plants 1
How corn is damaged 3
Other insects causing similar injury to corn 7
How to recognize the earworm 7
The egg 8
The larva or earworm 8
The pupa or resting stage 9
The moth or adult 9
Seasonal development 10
Natural agencies of control 10
Cannibalism 10
Parasites and predacious enemies 11
Weather conditions 12
Importance of natural agencies 12
Control measures 12
Time of planting 13
Character of husk 15
Variety to choose 15
Soil productiveness 16
Plowing 16
Spraying or dusting the silks 16
Degree of control possible 17

FARMERS' BULLETIN NO. 1311.—CHRYSANTHEMUMS FOR THE HOME:

The popularity of the chrysanthemum 1
Culture 3
Preparation of the soil 3
Summer pruning or stopping 3
Fertilizing 5
Staking 5
Disbudding 6
Shelters 7
Propagation 9
Varieties 12
Types of blooms 13
Insect enemies 16

FARMERS' BULLETIN NO. 1312.—TREE PLANTING IN THE GREAT PLAINS REGION:

Objects of planting 1
The Great Plains 2
Species recommended 5
Tree descriptions 6
Mixed plantations 19
Ornamental planting 19
Location of the plantation 22
Choice of planting stock 22
Source of planting stock 22
Preparation of soil 23
Time of planting 23
Methods of planting 24
Spacing 25
Care of plantations 26
Protection 28
Winter injury 30
Results 30
Sources of information and planting stock 32

FARMERS' BULLETIN NO. 1313.—GOOD PROPORTIONS IN THE DIET:

Kinds of foods needed 1
Proportions of foods needed 4
Amounts of foods needed 5

FARMERS' BULLETIN NO. 1313.—GOOD PROPORTIONS IN THE DIET—Con.
Page
A week's supply of vegetables and fruits for the average, or census, family 6
A week's supply of efficient-protein foods for the average, or census, family 8
A week's supply of cereal foods for the average, or census, family 10
A week's supply of sweets for the average, or census, family 11
A week's supply of fats and fat foods for the average, or census, family 12
Meal planning 14
Suggested bills of fare 15
Comparing one's own family with the average, or census, family 16
Computing the cost of a week's food supply 16
Suggestions for a household food account book 19
Summary 22
FARMERS' BULLETIN NO. 1314.—MOTOR TRUCKS ON CORN BELT FARMS:
Farms on which trucks are owned 1
Size of truck 3
Are these trucks profitable? 4
Advantages and disadvantages 5
The best size 5
Change of markets 6
Road hauling with trucks 7
Road hauling for which trucks are not used 8
Effect of different kinds of roads on use of trucks 9
Hauling on the farm with trucks 9
Custom hauling 10
Annual use of trucks 11
Cost of operation 11
Average cost per mile 14
Cost of hauling with trucks 15
Reliability 16
Saving of hired help 16
Displacement of horses 17
FARMERS' BULLETIN NO. 1315.—CLEANING MILKING MACHINES:
Necessity for proper cleaning 3
Points which require careful attention 3
Heat sterilization for milking machines 3
Effect of heat on the rubber parts 4
How to clean and sterilize milking machines, told in pictures 5
FARMERS' BULLETIN NO. 1316.—MARKETING THE EARLY POTATO CROP:
Early-crop region 1
Varieties 4
Planning ahead 5
The price outlook 6
Forecast from midwinter price 7
Watch the other potato crops 8
A sample season 8
Looking over the markets 9
Market information 11
For local markets 12
For distant markets 13
Get acquainted 16
Mistakes of early shippers 17
What the inspectors find 18
Object lessons in marketing the commercial crop 19
To sum it up 30
Potato bulletins 32
FARMERS' BULLETIN NO. 1317.—MARKETING MAIN-CROP POTATOES:
The main or late-potato region 1
What is done with the crop 1
The selling idea 4
Forecasting the market season 5

FARMERS' BULLETIN NO. 1317.—MARKETING MAIN-CROP POTATOES—Continued. Page
Prices in the making 6
Sources of crop and market news 8
Using the price records 9
A glance at recent market trend 12
Methods in country markets 14
Prominent shipping sections 19
Market practice at a northern shipping point 24
Country markets in western New York 26
A glimpse of city markets 28
Mistakes of shippers and receivers 32
A few chief points 34
Publications relating to potatoes and potato marketing 36
FARMERS' BULLETIN NO. 1318.—GREENHOUSE CONSTRUCTION AND HEATING:
Importance of the greenhouse industry 1
Locations suited to greenhouses 2
Layout of the plant 3
Types of greenhouses 5
Sizes and proportions of greenhouses 7
Greenhouse materials and parts 9
Ventilation 17
Painting and glazing 17
Greenhouse heating 18
Water supply 30
Benches and walks 30
Some greenhouses suitable for the beginner 31
Specific information given 38
FARMERS' BULLETIN NO. 1319.—COTTON-DUSTING MACHINERY:
Development of machinery for cotton dusting 1
How to select dusting machinery 3
Characteristics of farm 3
Suitability of machine for labor available 4
Day or night operation 5
Characteristics of calcium arsenate 6
Type of dust cloud required 7
Durability of machines 8
General characteristics of dusting machines 9
Machine types 11
Hand gun 11
Saddle gun 13
One-mule machine 14
Cart duster 15
Power duster 16
Lighting equipment 17
Cost of operation 17
Machine operation and maintenance 18
Poisoning devices to avoid 18
FARMERS' BULLETIN NO. 1320.—THE PRODUCTION OF CUCUMBERS IN GREENHOUSES:
Greenhouse-grown cucumbers 1
Location and growth of the industry 1
Greenhouses suited to cucumber growing 3
Relation of cucumbers to other forcing crops 5
Companion crops 6
Soils for greenhouse cucumbers 6
Management of the soil 7
Varieties and seed 13
Management of the crop 14
Enemies of greenhouse cucumbers 23
Diseases of greenhouse cucumbers 25
Harvesting, grading, and packing 26
Yields and returns 29

XUM

FARMERS' BULLETIN NO. 1321.—FUMIGATION OF CITRUS TREES FOR CONTROL OF INSECT PESTS: Page

What citrus fumigation is 1
Equipment required in orchard treatment 2
Chemicals of fumigation 9
How to generate hydrocyanic-acid gas 11
The pot method 11
The machine method 13
The liquid hydrocyanic-acid method 17
Dosage schedules 28
Fumigation procedure 31
Box tents 38
Effect of the gas on the plant 39
Citrus insects and their control 49
Cooperative fumigation 52
Responsibility for fumigation injury 53
Cost of fumigation 53
Fundamentals for successful fumigation 55
County regulations governing fumigators operating in southern California, 1922–23 57

FARMERS' BULLETIN NO. 1322.—THE STRIPED CUCUMBER BEETLE AND HOW TO CONTROL IT:

Appearance and nature of injury 1
The insect in its different stages 2
Where it occurs 3
Food plants 3
Life history and habits 5
Natural enemies 6
Methods of control 7
Summary of control measures 16

FARMERS' BULLETIN NO. 1323.—THE WHEAT STRAWWORM AND ITS CONTROL:

Economic importance 1
Wheat the only food plant 1
Distribution 2
Character of injury 3
Life history 4
Natural enemies 8
Control measures 9

FARMERS' BULLETIN NO. 1324.—LAMB AND MUTTON AND THEIR USE IN THE DIET:

Use of lamb and mutton on the farm 2
Methods for temporary preservation of the meat 3
Utilization of the fat 4
Refuse and waste 5
Selection and use of the meat 5
Cooking of tender meat 6
Cooking of the tougher cuts 6
Recipes 7
Summary 13

FARMERS' BULLETIN NO. 1325.—RURAL PLANNING—THE SOCIAL ASPECTS:

Why rural planning 1
Specific examples of rural planning 2
Recreation places 2
Public grounds and public places 9
Roadside planting, Burlington County, N. J 12
Trade and civic centers 15
Conclusion 29
